

REMARKS

A Notification of Missing Requirements was mailed 06/05/2007. This Notification required a new Oath and Declaration, a preliminary amendment, a marked up copy of the Substitute Specification, claims commencing on a separate sheet, and a \$65 surcharge. A message was received from Examiner Wallace on 06/04/2007. In this message she clarified that the claims requirement was for the translation, and the Oath and Declaration was fine and did not need to be replaced. Consequently, she stated, no \$65 surcharge was due

In response, Applicants have prepared and attached a marked up copy of the Substitute Specification which shows in detail the changes between the translation of the original application and the Substitute Specification filed on 10/16/2006. Claims are not shown in this mark up. A more accurate reflection of the claims of this Application is contained in the Listing on page 2 of this Preliminary Amendment. Applicants have also attached a further copy of the English translation of the original application with the claims commencing on a separate sheet.

The original claims of the English translation have been cancelled. See above listing. The new claims in the above listing are simply a rearrangement and revision of the claims in the English translation to conform them to US claim drafting style. All new claims are fully supportable from the specification and claims of the English translation. No new matter has been added.

The Specification was revised, as shown on the attached mark up, to improve comprehension, ensure that the specification fully supports the new claims, and otherwise conform the specification to US Patent Office requirements. All revisions are fully supportable from the specification and claims of the English translation. No new matter has been added.

The fees originally paid were calculated based on the new claims listed above. No additional fees are due or payable. It is respectfully requested that this Application be allowed to proceed to Examination in view of the above presented amendments and remarks.

Respectfully submitted,

/Norton R. Townsley/
